Bass Arpeggios to the 13 Most Important Chord Progressions in Jazz There are many different bebop chord progressions, but in essence they can be broken down into just thirteen simple structures. Chord Tone Soloing for Bass Guitar teaches you to how to use arpeggios, extensions, chromatic ideas and substitutions over each of the thirteen essential jazz sequences, and how to combine these building blocks into authentic, melodic solos. Each progression is approached both logically and methodically to build articulate bass solos from the fundamental principles of jazz. By applying arpeggio-based techniques, and learning to decorate your solos with chromatic ideas, you will quickly learn how to 'play the changes' in a musical and creative way. Chord Tone Soloing for Bass Guitar helps you build an articulate jazz language around the most important sequences in jazz. Play the Changes Jazz soloing developed around the concept of 'hitting the changes' and by combining rich arpeggios with chromatic ideas you will quickly master the jazz guitar language.
