## Description :

Prsentation de l'diteurIn 1919 a generation of young women discovered that there were, quite simply, not enough men to go round, and the statistics confirmed it. After the 1921 Census, the press ran alarming stories of the 'Problem of the Surplus Women - Two Million who can never become Wives...'. This book is about those women, and about how they were forced, by a tragedy of historic proportions, to stop depending

on men for their income, their identity and their future happiness. *Revue de presse* This is a ground-breaking book, richly nuanced with titbits of information, insight and understanding (The Daily Mail) Remarkably perceptive and well-researched ... Virginia Nicholson has produced another extraordinarily interesting work, sensitive, intelligent and well-written (The Sunday Telegraph) This in an inspiring book, lovingly researched, well-written and humane... the period is beautifully caught (The Economist) Brave, humane and honest (The Observer) *Présentation de l'auteur* In 1919 a generation of young women discovered that there were, quite simply, not enough men to go round, and the statistics confirmed it.
